

EUROPEAN COMMUNITY (EC) TRADE WITH AFRICAN, CARIBBEAN AND PACIFIC COUNTRIES (ACP) -Results until September 1992-

PART I. EC TRADE BALANCE VIS-A-VIS THE ACP AND CLASS 2 COUNTRIES

EC TRADE BALANCE WITH ACP

1. EC's trade deficit with the ACP countries was around 1.3 billion ecus in the first nine months of 1992; for the same period of 1991 this deficit was 2.7 billion ecus. This reduction (by more than a half) of the EC's trade deficit is due both to the rise of EC exports (7,1%) and the reduction of EC imports (4,5%) from these countries.

2. The EC experienced a surplus of 305 millions ecus during the third quarter of 1992.

3. EC's trade balance with CLASS 2 countries experienced a surplus of more than 3 billion ecus in the first three quarters of 1992, compared with a deficit of 10,4 billion ecus in the same period of 1991. While EC imports from this group went down 3,6%, EC exports increased by 9,3%. When considering non-oil trade, this EC surplus rose from 20 billion ecus in the first nine months of 1991 to 30 billion ecus in the same period of 1992.

4. The cover ratio for CLASS 2 countries was 103% in the first three quarters of 1992.

PART II. EC IMPORTS FROM THE ACP AND CLASS 2 COUNTRIES

EC IMPORTS FROM ACP

1. EC imports from ACP went down 11,8% in value and 9,9% in volume in the third quarter of 1992, compared to the same period of 1991. With these figures, EC imports from these countries went down by 4,5% to 13,6 billion ecus in the first nine months of 1992.

2. EC imports of manufactured products (SITC 5-8) from ACP increased by 12% in the first three quarters of 1992 when compared to the same period of 1991. EC imports of food, beverages and tobacco (SITC 0+1) and raw materials other than fuels (SITC 2+4) went down 2,7% and 8,1% respectively in the first nine months of 1992. EC imports of fuel (SITC 3), which represented around 28% of total EC imports from ACP, experienced a decrease of 13,4% during the same period.

3. EC imports from CLASS 2 countries showed the same pattern during the first nine months of 1992: imports of manufactured products (around 50% of total EC imports from these countries) increased by 1,1%, while the rest of the SITC sections (excluding "other products") experienced a decrease.

PART III. EC EXPORTS TO THE ACP AND CLASS 2 COUNTRIES

EC EXPORTS TO ACP

1. EC exports to ACP increased by 11,8% in value and 0,2% in volume in the third quarter of 1992 when compared to the same period of 1991. With these figures EC exports to this group of countries went up 7,1% to 12,4 billion ecus in the first nine months of 1992.

2. EC exports of manufactured products to ACP (80% of total EC exports to this group) went up 8,4% to nearly 10 billion ecus during the period January-September 1992, when compared to the same period of 1991. EC exports of this products to the CLASS 2 countries increased by 11,6% to 92,4 billion ecus. Exports of manufactured products represented 83% of total EC exports to this group of countries.

3. EC exports of food, beverages and tobacco to the ACP countries increased by 6,4% in the first nine months of 1992 when compared to the same period of 1991, while EC exports of raw materials other than fuels to this group of countries went up by 14,4% during the same period.

PART IV. EC-ACP TRADE BY PARTNER COUNTRIES

1. By groups of countries, the EC surplus with West Africa was around 330 million ecus in the third quarter of 1992; the cumulated trade from January to September 1992 with this group was nearly balanced. EC trade deficit with Central Africa experienced also an important reduction in the third quarter of 1992 (-230 million ecus). Another significant fact was the EC surplus with Southern Africa in the same period (+90 billion ecus), which

reduced the EC deficit with this group of countries to 150 billion ecus during the first nine months of 1992. By individual ACP countries, the biggest EC deficits from January to September 1992 were kept with Nigeria (-574 million ecus) and Ivory Coast (-388 million ecus), while the largest surplus were experienced with Angola and Liberia (359 and 355 million ecus respectively).

PART V. EC-ACP TRADE BY MAIN PRODUCTS

1. EC imports of crude petroleum (30,2% of total EC imports from ACP) went down 13,7% in value and 2,8% in quantity in the first nine months of 1992 when compared to the same period of 1991. More than 11% of total EC imports of crude petroleum comes from the ACP countries.

2. EC imports of non industrial diamonds increased by 74,2% between the first three quarters of 1991 and 1992. EC imports of raw cane sugar also experienced an increase between these two periods (8%), and was the fourth most important import from this group of countries. Imports of fresh bananas went up by 5,3% in value; in quantity these imports were up by 13,2%, reflecting a reduction of nearly 8% in the ecu import prices.

3. The EC imports which suffered the largest reduction in value in the first three quarters of 1992 corresponded to the following products: bars of refined copper (-78,9%) and gold unwrought (-47,3%).

4. 98% of EC imports of tropical wood, 82% of EC imports of raw cane sugar and 78,7% of EC imports of cocoa beans come from the ACP countries in the first nine months of 1992.

5. EC imports of coffee between the first three quarters of 1991 and the same period of 1992 went down by 20% in value; however they only decreased by 3,3% in quantity; this reflects a decrease of more than 16,5% in the ecu import prices. The main ACP exporters were Uganda, Ivory Coast, Kenya and Cameroon.

6. The degree of concentration of EC imports from ACP remained stable: five products were needed to cover 50% of total EC imports from ACP (crude petroleum, non industrial diamonds, cocoa beans, raw cane sugar and coffee).
